

CONCENTRATED MULTI-PURPOSE CLEANER

ACCEPTABLE FOR USE IN FOOD ESTABLISHMENTS

BILINGUAL EN / FR LABEL

One concentrate. One shelf cleared.

SIMPLI-CLEAN is a concentrated multi-purpose cleaner that dilutes from heavy-duty degreasing all the way to streak-free glass. One SKU replaces a shelf of single-purpose products — sold by the case to businesses that clean for a living.

WHY ONE JUG DOES MORE

1 One product, every surface

Adjust the dilution and the same concentrate handles grease, grime, glass and everything between — fewer SKUs to stock, train on, and reorder.

2 Concentrated value

Sold as concentrate, so you buy cleaner — not pre-diluted water. A single 4 L jug makes from 44 L up to 484 L of ready-to-use solution depending on the job.

3 Built for working kitchens

Acceptable for use in food establishments, with a bilingual EN/FR label — suited to restaurants, food service and the crews that clean them.

4 Simple to buy and reorder

Ordered by the case with a one-case minimum, delivered across Canada. Reorder by a single email when you're running low.

WHO IT'S FOR

- Restaurants & food service
- Commercial & janitorial cleaning companies
- Automotive shops
- Property management
- Hotels

From heavy degreasing to streak-free glass — **one concentrate, five dilutions.**
